BENTON ROCHESTER

www.ImBenton.com || Hello@imbenton.com || 303.521.5311

Currently, I'm a developer at Crispin Porter + Bogusky, where I specialize in standards developement. My primary stack is backbone, compass, grunt and node.js. I am looking for a position to further my education in Ruby on Rails and application development while having the opportunity build extraordinary brand interactions.

Experience

Crispin Porter + Bogusky – Interactive Developer   January 2013 – Present
Worked between departments to concept and develop world class brand interactions. Worked in .Net, LAMP, and Node environments with a focus on front-end development.

Crispin Porter + Bogusky – Internship   September 2012 – December 2012
Earned developer position through writing high quality code and reinforcing the team.

The Porch LLC – Freelance   August 2011 – December 2012
Web development during my time in school.

Education

BDW (Boulder Digital Works)
Focused on Development and Creative Technology

University of Colorado at Boulder
B.S. Economics

Projects

NBC // Tonight Show with Jimmy Fallon – Large scale application completed in tight deadline.
Fruit of the Loom // SVG Infographic –Visualization of linkedIn professionals who recently changed jobs.
FUN // Node Pong –Websocket game that enabled two phones to battle in pong with the desktop as a display.
PBS // Boulder Box Sets – Emmy award winning television Series: Concept, Animation, and Website.
